Subject: IMAC - Create Active Directory Groups

The CISO has decided the IT department needs to create Active Directory Groups and properly assign users to them to facilitate identity management and RBAC.

Create Active Directory Groups for the following departments:

IT
Executives
Marketing
Sales
HR

Properly assign users to the above Active Directory Groups.

In a .PDF or Word document business memo, provide a screenshot of the required Active Directory Groups. The screenshot needs to show the location of the Active Directory Groups in Active Directory.

Thank you.

CISO
