Subject: PROC - Social Networking Policy

The CEO just asked me about a policy for social networking sites. Apparently, a competitor had an employee post negative information about the company and its leadership and they fired the employee. However, without a social media policy the employee sued the company and won a multi-million dollar lawsuit. The lack of a policy was the primary element of the plaintiff's case. So, our CEO wants an iron-clad Social Media Policy.

Naturally, we will have to route this through legal but I want you to develop and submit a detailed, specific to our company or in this case Team Social Media Policy. Do not send me just the boilerplate Social Media Policy from Internet policy. It must be edited with our Team name and delete and add sections for our needs. I Highly encourage you to look at multiple policies and provide me the best of breed policy. This is not a check the box policy as our collective reputations and potentially our jobs are on the line. The CEO was quite serious that this was THE top priority!

Provide the policy in an editable format (Word, Wordpad, etc.) with a proper business cover letter for routing through the CIO, Legal, and ultimately to our CEO.

Thank you.

Chief Information Security Officer
