Subject: NETW - Implement best practice security profiles on the Palo Alto firewall

We would like to leverage our investment in firewall technologies.

1.) Create best practice security profiles that will prevent advanced threats.

<https://docs.paloaltonetworks.com/best-practices/8-1/internet-gateway-best-practices/best-practice-internet-gateway-security-policy/create-best-practice-security-profiles.html>

2.) Attach the created security profiles to each firewall Security Policy on the firewall.

3.) Attach screen shots showing the Security Profile configuration

4.) Attach screen shots of the Security Policies w/attached Security Profiles

Respond in a business memo format with required screens shots.

Thank you.

IT Director
